Approval of Minutes: September 7th, 2016 Minutes were approved

Director of Competitive Aquatics Report

Randy Erlenbach

- The October Long Course Invite has attracted 4 really good teams and the January invite has a very good team out of Boston attending. These are 5 out of the top 6 teams in the North East. It speaks volumes for the Wahoos and our program that these teams want to come here and race against us. They know that we have an inviting atmosphere, will provide excellent competition, and our meets are run very well and efficiently.
- Bubble up
 - o Special thank you to all volunteers especially those that came when email blast went out!
 - o Not enough volunteers throughout the day. Started and ended with about 25 people.
 - o It was efficient until the time came to pull the bubble up. The design of the bubble, requires additional help (60+) when pulling and holding the bubble while it is inflating.
 - o Several emails went out to request extra help, which thankfully came.
 - o Y Staff, front desk and other Y employees also helped in getting the bubble up. Thank you!
 - o Bubble up and down responsibility is on the families up the Wahoos.

- Work policy

- A need to modify the policy again as there is ongoing issue with acquiring the number of volunteers needed to run a meet successfully. Too often, the meet managers are running through the lobby, begging people to work.
- With the number of families on the Wahoos, we should be able to fill all positions without asking for additional volunteers from other teams and without having to threaten that the meet will not start due to a lack of workers.
- SC meets require 50-90+ workers to operate a meet per session
- LC meets require 54+ workers to operate a meet per session
- Started ground work with new suggestions and ideas to address the issue. Possible option for large meets only. Any day you have a swimmer in the water, you are expected to work. Benefit is that we may be able to split shift positions like timers to half day.
