INSTRUCTIONS FOR PARKING - LICENSE PLATE REGISTRATION

POPLAR AND WALNUT GARAGE

The garage is gateless. License plate reading technology is used to capture the vehicle's license plate when entering and exiting the garage. Every vehicle must register its license plate in the system following the directions below. The system then checks that every vehicle has valid parking. If the vehicle exits the garage without registering its plate, a parking ticket will be generated. The parking ticket will be mailed to the registration address of the vehicle.

TO USE QR CODE TO PARK IN GARAGES

1. Scan QR code below for the dates you are parking.
2. Click on "Continue as Guest"
3. Enter name and add Vehicle License Plate Number and State.
4. Confirm acceptance of Terms and Conditions and press "Register for Permit"
5. Permit is valid for unlimited entrance and exit of the garage on the date of registration. This is a digital permit. No hang tag or dashboard receipt is required to be displayed.
