Note:

Dolphins swim mostly dual meets, so the areas shaded in yellow represent scoring method for most regular season meets. In each individual event only 3 people can score points, and in relay events only 1 team can score points.

Dolphins swim in a multi-team league championship meet at season end. See the sections shaded in green for the scoring method used at the 2014-15 meet in a 6 lane pool. This will likely change in 2015-16 because the meet will be in a 10 lane pool.
